

Leading the Way in Non-Toxic Bed Bug Eradication

Bed Bugs All Gone, a division of Happy Pest Control, Inc. (HPC), is a pioneering force in non-toxic pest management solutions. We specialize in the eradication of bed bugs using cutting-edge, eco-conscious strategies that align with the federal government's priorities for health, safety, environmental sustainability, and operational readiness. Our proprietary, EPA-approved technology is proven effective against the most severe infestations, offering long-term protection without harmful chemicals.

CORE CAPABILITIES

- **Non-Toxic Bed Bug Eradication**

Utilizing proprietary, eco-friendly technology for rapid and effective bed bug elimination without the use of harmful pesticides. Our method is safe, effective, and provides long-lasting results.

- **K-9 Bed Bug Inspections**

Deploying highly trained canine teams for fast and accurate detection of bed bugs, enabling early intervention and targeted treatment to prevent infestations from spreading.

- **Integrated Pest Management (IPM)**

Implementing proactive, science-based strategies to prevent bed bug infestations, minimizing the need for extensive treatments, and ensuring continuous protection.

- **Customized Solutions**

Tailoring bed bug management plans to the specific needs of each facility, including federal agencies, military installations, healthcare facilities, and commercial properties.

KEY FEATURES

- **Health and Safety:** Protects personnel and the public from bed bug infestations without exposure to harmful chemicals.
- **Environmental Sustainability:** Uses eco-friendly solutions that minimize environmental impact.
- **Operational Readiness:** Ensures facilities remain pest-free, maintaining operational efficiency and minimizing disruptions.
- **Cost Efficiency:** Delivers high-quality services at competitive prices, maximizing taxpayer value.
- **Confidentiality:** Unmarked trucks ensure privacy during inspections and treatments.

Bed Bugs *all* GONE

UNIQUE VALUE PROPOSITION

Bed Bugs All Gone offers a revolutionary, non-toxic approach to bed bug eradication, aligning with federal mandates for health, safety, and environmental stewardship. Our proprietary technology and comprehensive service offerings make us the preferred choice for federal and commercial clients seeking effective, sustainable, and cost-efficient pest management solutions.
